

## **Annual Health Screenings at Huron Sports Academy**

Huron Sports Academy conducts annual health screenings each fall, as required by the State of Ohio in accordance with Ohio Revised Code 3313.69. These screenings are part of the Children's Hearing and Vision Program, which is designed to support early identification, diagnosis, and treatment of hearing and vision concerns in children.

All students entering kindergarten, as well as any students new to the school regardless of grade level, will be screened for vision and hearing. Students who do not pass these screenings will be referred for further evaluation and care. Please note that parents/guardians will only be notified of the screening results if a referral is necessary. In such cases, a referral letter along with relevant documentation will be sent home.

If you do not wish for your child to participate in any part of the screening program, please notify the school in writing.
